¹ All area under a roof shall be measured at the outermost exterior wall or the outward most structural component and included as Lot Coverage in this zone. ² No lot in the R-1 Residence District in Blocks 591, 592, 601, 603 and 604 shall be less than two hundred (200) feet in width or frontage, with a minimum front yard of fifty (50) feet and minimum side yards of fifty (50) feet. ³ In the "B" Zone, the 1st floor elevation shall be no greater than 7 feet, and the elevation of the 2nd floor wall plate shall be no greater than 24 feet above the lower of the following: (1) the elevation of the roadway centerline, measured at the midpoint of the lot, or (2) the mean pre-existing elevation measured across the width of the lot at the front face of the proposed main structure. ⁴ For lots within a "B" Zone in a flood plain (as defined in section 146-2 of this Code), the building height shall be increased to a maximum of 33 feet with a maximum of 2 1/2 stories of habitable space, with the garage floor at the mean pre-existing elevation measured across the width of the lot at the front face of the proposed main structure. The 1st floor elevation shall be no greater than 9 feet above the garage floor, and the elevation of the 2nd floor wall plate shall be no greater than 27 feet above the mean pre-existing elevation established at the garage floor elevation. The area below the 1st floor shall not be considered to be a story for purposes of determining building height.
