Junior Engineer Explorers

Class Minimum: 8 Class Limit: 12

This program introduces our youngest engineers to the basic concepts of engineering from a variety of engineering fields. Through open and focused exploration, children will design and construct a number of engineering projects. Including lessons from Aerospace Engineering, Mechanical Engineering, Marine Engineering and Civil Engineering.

3:30 - 4:30 PM
3rd to 8th Grade

The Engineering of Travel

Class Minimum: 8 Class Limit: 16

Amazing Race!: 111 years ago airplanes had not even made their first flight, yet today we can fly to the other side of the world in 12 hours! It is thanks to advances in technology that we are able to explore so much of the world. In this curriculum students will compete to see who is able to travel the farthest around the world. This trek around the world will require students to design their very own boat, plane, and even a rocket!
