Re: MaRiis Park Improvements

Dear Supervisor Belmont and Members of the Town Board:

In December 2013, the Board approved a contract with Langan Engineering for the design of aesthetic improvements to Ma Riis Park. We are reaching the end of the design phase and look forward to moving the project forward.

The current plan calls for certain improvements along the outer perimeter of the park and existing Dough Boy monument area. The attached sketches illustrate the various project components: decorative fencing with brick piers, stamped concrete surrounding the monument, new sidewalks, park benches and landscaping improvements.

The intended source of funding for the project, as previously discussed, is subdivision recreation fees.

If acceptable, we would like to request authorization to advertise and receive bids at the March 20, 2014 Board Meeting.

Respectfully submitted,

Michael J. Amodeo, P.E.  
Town/Village Engineer

MJA/fmb
