**Re: Westchester Joint Water Works
Installation of Standby Generators at the Rye Lake Pump Station
Special Exception Use Permit**

Dear Mayor Belmont and Members of the Board:

The Westchester Joint Water Works (WJWW) has submitted a Site Plan application to the Town of Harrison Planning Department for the installation of three (3) standby generators at the Rye Lake Pump Station. Planning Board approval for the project was granted at last night's Public Hearing. A Special Exception Use application was submitted along with the Site Plan application.

We are writing to request a public hearing to obtain approval of the Special Exception Use application and that this project be added to the Town Board agenda for the next meeting scheduled on Thursday, November 5th.

To assist in the approval process, the following documents are attached to this letter:

- Special Exception Use application form
- Engineering drawings depicting the proposed installation (9 sheets total)

Thank you for your assistance in this matter.

Please feel free to contact me at (631) 756-8000 (x1404) if you should have any questions or require additional information.

Very truly yours,

Peter J. Petriccione, P.E.
PJP/pjp
