TOWN CLERK  
HARRISON, N.Y.

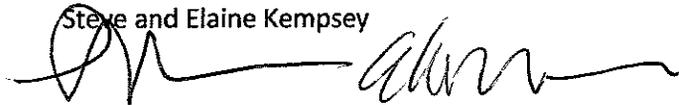

We would like to petition to have our property at 519 Woodlands Road, Harrison, NY to be withdrawn from the county sewer district.

According to Westchester County Department of Environmental Facilities the requirements for eligibility are:

1. Parcel larger than 40,000 square feet. Ours is just over 42,000 square feet.
2. Property lines must be located at least 100 feet away from the nearest sewer. Ours are about 300 feet away either direction from the nearest line.
3. No history of septic failure. We have septic serviced yearly and there have been no issues.

Thank you for your consideration.
