**Re: Harrison Police Department Emergency Infrastructure Agreement with the
Metropolitan Transportation Authority**

Supervisor/Mayor Dionisio and Members of the Town Board:

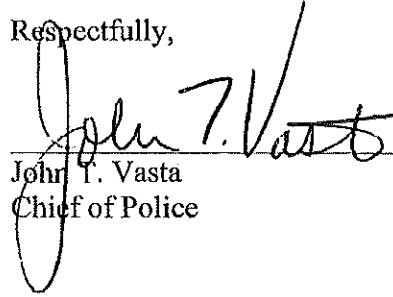

Authorization is hereby requested for the installation of emergency radio infrastructure improvements at the Harrison Police Department.

These are significant upgrades to the existing infrastructure at the police department which allow for enhanced radio communication between joint emergency services – including police, fire, and EMS – and provide amplified public safety connectivity within Harrison Central School District buildings and other major corporate and residential structures throughout town.

We are pleased to advise the Town Board that no expenditure of funds will be required and that the Metropolitan Transportation Authority is fully funding this project, as it accommodates interagency frequency compatibility for day-to-day operations and largescale multi-agency incidents. Due to the sensitive nature of emergency communications infrastructure, schematic plans will not be made public, but will be shared with the Board in Executive Session.

The Law Department is reviewing the agreement with the Metropolitan Transportation Authority, and we have asked, subject to their review, that the Supervisor be authorized to sign the Agreement.

Respectfully,

John T. Vasta
Chief of Police
