Re: Radio E-Lines for the Harrison Police Department Radio Simulcast System

Supervisor/Mayor Belmont and Members of the Town Board:

Authorization is requested to approve the Altice Service Agreement which is the Radio E-Lines for the Harrison Police Department Radio Simulcast System.

The Harrison Police Department along with GooseTown Communications is currently working on a Radio System upgrade. This upgrade will allow for enhanced coverage, eliminating dead zones while transmitting and receiving. We are currently using Verizon T-1 lines to carry radio transmissions between our radio repeater sites. The Harrison Police Department respectfully request to use Altice Business Services in place of Verizon. Altice has proposed under the "IT-1376 Westchester County MSA - Master Service Agreement", to build a 20 Meg dedicated E-Line with two additional locations for a recurring monthly charge of \$425 per line. The lines of communications will increase from four locations to six locations with a savings of \$465.22 per year over Verizon.

This request is made pending approval of the Altice service agreement by the Law Department.

Respectfully submitted,

Lieutenant John T. Vasta
