Re: Installation of 2 Stop Signs to create a Three Way Stop

Mayor Belmont and Members of the Village Board:

I respectfully request a village board resolution to make the intersection at Sterling Road and Stratford Road a three-way stop. I recommend that two additional stop signs be installed; one on the eastbound lane and one on the westbound lane of Sterling Road.

After investigating the intersection it revealed a line of sight problem exists for motorists entering the intersection from Sterling Road or Stratford Road. There are large trees at the edge of the intersection which limits site distance. Even if the trees were trimmed it still would not make this a safe intersection due to the characteristic of the roadway and configuration of the intersection. There have been complaints about near miss accidents with vehicles and pedestrians. There has also been an increase in traffic over the years and there are no sidewalks in the area for pedestrians.

The installation of stop signs at these locations will create a safer environment for vehicular and pedestrian traffic.

Respectfully submitted,

Anthony Marraccini  
Chief of Police
