HARRISON POLICE DEPARTMENT MAKES CRASH REPORTS AVAILABLE ONLINE

Effective February 16, Harrison Police Department, Harrison NY, is digitizing its crash reports through a partnership with the Carfax Police Crash Assistance Program. The reports are stored electronically in a secure database and available for purchase online at www.crashdocs.org/ny-harrisonpd.

Filing electronic crash reports reduces overhead costs for the department. Police departments spend an average of \$35,000 a year to manually reproduce accident reports. The new system virtually eliminates this cost as well as the administrative staff time spent fulfilling each request.

Just as important, public access to crash reports is now more efficient. Reports needed by involved parties, insurance companies and other members of the public are now easily obtained online within minutes.

Working with Carfax Police Crash Assistance, the Harrison Police Department is better serving our community.

For more information, contact Chief Anthony Marraccini, Harrison Police Department.

About Carfax (www.carfax.com) and Carfax Police Crash Assistance (police.carfax.com)

Carfax is the vehicle history expert for used car buyers, sellers and the automotive industry. Carfax created the Vehicle History Report in 1986 and maintains the largest vehicle history database ever assembled, comprising over 8 billion vehicle records from more than 34,000 sources. Carfax Police Crash Assistance provides law enforcement agencies with a no-cost ecommerce solution for the distribution of official accident reports, as well as tools to enhance investigations of fraud, theft, and other crimes.
